## WORK EXPERIENCE

### Saxton Horne

Dec. 2016-Present

### Software Engineer

- Proved ability to understand new technologies quickly by implementing Alchemy CMS within days of learning it
- Effectively managed multiple projects simultaneously to deliver products on-time to clients
- Communicated effectively while pair-programming to write clean, efficient code

### Pando Dev

Feb. 2017 - Present

### Web Developer - Remote (part-time)

- Gained trust of manager quickly by completing tasks early and efficiently which led to leading client projects after two months with company
- Improved communication skills as work is entirely remote
- Demonstrated adaptability by switching between multiple projects without losing momentum

### DevPoint Labs

Jul. 2016 - Jan. 2017

### Teaching Assistant/Web Developer

- Maximized students' understanding of Ruby on Rails, Javascript, ReactJS, HTML, and CSS through personal mentorship
- Led Meetup series focused on HTML5 and CSS3
- Helped maintain DevPointLabs.com using ReactJS and Ruby on Rails.

### Farm Bureau

### Financial Services

Oct. 2014 - May 2016

### Asst. to Regional Vice President/Events Coordinator

- Increased event registration by 30% while reducing agent burden by maintaining event registration webpages using Wordpress
- Increased management's visibility into productivity by automating region-wide reporting
- Reduced spending 10% to balance regional budget by renegotiation vendor agreements and increasing vendor event funding

## EDUCATION

### DevPoint Labs

May 2016-July 2016

### Full-Stack Ruby on Rails

- Gained proficiency in multiple languages and technologies by studying 60+ hours per week over 11 week course
- Led team that designed and built web app, Snobuddies, that won 2nd in code competition
- ideated and built capstone project, someThere, in 3 weeks

### Utah Valley University

Class of 2014

### Bachelor of Arts, General History

## TECH STACK

Rails | ReactJS | Redux | HTML5 | CSS3 | JavaScript | PostgreSQL | GitHub | Sketch | Heroku
